**Subject:** Las Varas Beach (SB-L-S002a) Sampling and Cleanup

Good Afternoon,

During the UC Brief today we discussed sampling and cleanup activities at Las Varas Beach (SB-L-S002a) based off the findings from the Overview Oil Survey Assessment. Ideas were communicated that we might want to conduct sampling after Hurricane Dolores activities conclude around Monday. Does the UC want to move forward with sampling while the teams are cleaning tomorrow or would the UC like to complete the sampling after the storm?

Thank You,

***Ryan Andersen***
